USAME (OSAMA) GHARIBO

Senior Data Analyst | BI Developer | MEAL & Information Management Officer

Gaziantep, Turkey | +90 552 599 99 87 | osama.gharebo@gmail.com
Portfolio: osamagharebo-cyber.github.io | LinkedIn: usame-gharibo

PROFESSIONAL SUMMARY

Results-driven **Data Analyst, Business Intelligence Developer, and MEAL Officer** with over **7 years of experience** spanning international humanitarian organizations and commercial enterprises. Proven track record in architecting SQL databases, automating ETL pipelines using **Python (Pandas) and Microsoft Power Automate**, and building interactive **Power BI and Excel dashboards** that drive executive decision-making. Adept at leading Monitoring, Evaluation, Accountability, and Learning (MEAL) frameworks, managing large-scale field data collection (Kobo Toolbox, LogAlto, ActivityInfo), and delivering digital transformation solutions for businesses. Fluent in Arabic, Kurdish, English (C1), and Turkish (C1).

TECHNICAL SKILLS

BI & Data Visualization: Microsoft Power BI (Advanced DAX, Data Modeling, Row-Level Security), Looker Studio, Advanced Microsoft Excel (Power Query, Power Pivot, Dynamic Dashboards), HTML5/CSS/JS (Chart.js)

Programming, Databases & ETL: Python (Pandas, NumPy, REST APIs, Data Cleaning Automation), SQL (Database Design, Complex Queries, Joins), ETL Pipeline Development

Workflow Automation & Digital Tools: Microsoft Power Automate, Office Scripts, Web Development & Deployment (GitHub Pages, Custom Domains, Corporate Email & DNS Setup, Google Search Console)

MEAL & Data Collection Platforms: Kobo Toolbox, ODK, LogAlto, ActivityInfo, Google Workspace, CFRM Management, Data Quality Audits (DQA), SOP Development

Financial & Business Analysis: Budget Variance Analysis, Cost Accounting, Financial Reporting, Al-Ameen Accounting Software

PROFESSIONAL EXPERIENCE

MEAL Officer | Data & Accountability Analyst
Jan 2024 – Present

Relief International | Gaziantep, Turkey (Remote & Field Support)

- Serve as the lead focal point for the Complaints and Feedback Response Mechanism (CFRM), overseeing hotline operations, data categorization, and accountability workflows.
- Design and maintain interactive **Power BI and Advanced Excel dashboards** to visualize beneficiary feedback trends, SLA resolution rates, and program KPIs for senior management.
- Automate case routing, data validation, and real-time reporting alerts using **Microsoft Power Automate**, significantly reducing response turnaround times.
- Conduct statistical trend and gap analyses on multi-sectoral MEAL datasets to drive programmatic adjustments and donor reporting compliance.
- Enforce strict data protection, confidentiality, and information security protocols across all beneficiary databases.

Digital Solutions & Web Analytics Consultant (Freelance Project)
Sep 2026 – Present

Ganzen Plus 24 (ganzenplus24.de) | Germany (Remote)

- Engineered and launched a responsive corporate web platform (https://ganzenplus24.de/) to establish digital brand authority and capture B2B/B2C client leads.
- Configured end-to-end digital infrastructure, including custom domain DNS verification, corporate email accounts, and automated contact form processing.
- Implemented SEO best practices, Google Search Console indexing, and Google Business Profile optimization to maximize local search visibility and customer conversion.

WASH Data & Operations Analyst (Project Reporting Officer)
May 2023 – Dec 2023

ACTED (in partnership with UNICEF) | Adıyaman & Kahramanmaraş, Turkey

- Spearheaded daily data management and operational analytics for a large-scale emergency water distribution response involving **18 water tankers and 18 field staff**.
- Built automated tracking tools to monitor daily water distribution volumes, chlorine testing compliance, and beneficiary reach across multiple emergency zones.
- Analyzed fleet efficiency and identified operational bottlenecks through real-time data monitoring, delivering daily analytical briefs to project leadership and UNICEF partners.

Data Analyst & Information Management Specialist *Jan 2021 – Apr 2023*
MOZUN | Gaziantep, Turkey

- Led the end-to-end design and administration of relational project databases using **SQL and Advanced Excel** across multiple humanitarian programs.
- Developed and deployed interactive **Power BI dashboards** tracking core project indicators, budget burn rates, and beneficiary demographics for internal teams and external donors.
- Authored automated **Python (Pandas)** scripts to clean, deduplicate, and transform large datasets extracted from Kobo Toolbox, ODK, and external APIs.
- Established organizational Information Management SOPs, validation rules, and automated data quality assurance (DQA) protocols.

Database & Reporting Specialist (Information Management Officer) *Nov 2018 – Dec 2020*
HUMAN CARE | Gaziantep, Turkey

- Managed high-volume data extraction, cleaning, and validation across multi-donor projects utilizing **Excel, LogAlto, and ActivityInfo**.
- Designed digital data collection forms (Kobo Toolbox, ODK) with complex skip logic and validation constraints, and trained field enumerators on data accuracy standards.
- Produced periodic analytical summaries, visual dashboards, and donor progress reports highlighting programmatic trends and data integrity metrics.

Database & Data Quality Coordinator *Sep 2017 – Oct 2018*
VISION FOR A BETTER FUTURE | Gaziantep, Turkey

- Administered centralized beneficiary databases, implementing automated validation rules and structured audit procedures to ensure 99%+ data accuracy.
- Performed routine database backups, data cleaning audits, and ad-hoc quantitative extracts to support MEAL evaluations and donor inquiries.
- Trained field teams on mobile data collection tools (Kobo) and standardized data management practices.

Financial Data Analyst & Cost Accountant *Aug 2016 – Aug 2017*
EVA Company for Livestock Export | Gaziantep, Turkey

- Managed financial data recording, general ledger reconciliation, and cost accounting using Al-Ameen accounting software.
- Prepared monthly financial statements (income statements, balance sheets), project cost models, and budget forecasts for executive review, alongside Arabic-Turkish business translation.

EDUCATION

Bachelor of Business Administration (English) | Anadolu University, Eskişehir, Turkey *2019 – 2025*
